Differentiate your software solution with unrivaled dispensed medication data for at-risk patient populations, sourced directly from pharmacy benefit managers (PBMs) and pharmacies. Backed by the nation’s largest health information network, Medication History for Panel Management gives your customers easy access to the actionable intelligence they need to improve care, increase efficiency and lower costs.

Medication Information is critical to managing at-risk patient populations.

- Chronically ill patients account for 91% of all prescriptions in the U.S.¹
- The Department of Health and Human Services wants 90% of Medicare fee-for-service reimbursements to be tied to care quality and value by 2018.²
- Panel management provides data for nearly 4 billion dispensed medications for 240 million patients.

“The foundation of successful population health is to be empowered to manage chronic disease. Therefore, it is increasingly important to have access to high-quality and timely information on our patients.”

Michael Mirro, M.D.
Senior Vice President, Chief Academic Research Officer, Parkview Health
Get unrivaled actionable intelligence for at-risk patient populations.

HELP CUSTOMERS
MANAGE THEIR
POPULATION
HEALTH
INITIATIVES
WITH THE
MOST TIMELY
AND ACCURATE
DISPENSED
MEDICATION DATA.

Medication History for Panel Management

POSITION YOUR SOFTWARE SOLUTION FOR SUCCESS.

Give your customers comprehensive batch medication history data for select patient populations via a single connection to the Surescripts network. Our trusted data is the most current available. It’s refreshed nightly and delivered securely for easy integration with your EHR or analytics platform.

DEEPEN YOUR CUSTOMER RELATIONSHIPS BY GIVING CLINICIANS THE DATA THEY NEED TO:

- SPOT MEDICATION NON-ADHERENCE
- IDENTIFY POTENTIAL MEDICATION ABUSE
- DISCOVER AND CLOSE GAPS IN CARE
- IDENTIFY AND TRIAGE AT-RISK PATIENT POPULATIONS TO INFORM CARE PLANS
- MEASURE MEDICATION METRICS FOR CMS REIMBURSEMENTS
